LinkedIn | Behance | 3D Game Portfolio

SUMMARY

UI/UX design learner with a Bachelor of Arts in Political Science (Honours), currently pursuing the UI/UX Leadership Program at IIM Skills. Interested in creating clear, user-centred digital experiences through research, wireframing, interaction design, and visual design.

PROJECTS

Wall Vista — AI-powered wall visualisation app *UI/UX Design · Project*

- Concept for helping homeowners explore wall colours, designs, and wall art through visualisation on their own walls.
- Connects the visualisation journey with verified painters and wall artists, with an emphasis on transparent pricing.

Home Tutor Pro — Home tutor discovery platform *UI/UX Design · Project*

- Product concept focused on helping learners and families discover suitable home tutors.
- Designed around making tutor discovery and the path to connecting with a tutor easier to navigate.

My Game Portfolio — Interactive 3D portfolio *Web Portfolio*

- Created a game-inspired portfolio experience to present personal work in an interactive 3D environment. View portfolio.
